The information in this Certificate has been calculated based on data provided by the producer pursuant to the Angus Link program of the American Angus Association (the "Association"). The Association is not responsible for inaccurate information provided to it by the producer or others, incorrectly identified cattle or inappropriate use of any information in this Certificate. Further, while the Association makes reasonable efforts to ensure the quality of the genetic prediction analysis and other information presented in its Angus Link program reports, the Association does not guarantee or assume responsibility for the accuracy, timeliness or completeness of information conveyed in such reports, which are predictions and not guarantees of any particular result.
