

ANGUS

THE BUSINESS BREED

POSITION POSTING

The American Angus Association is seeking a highly motivated Software Engineer in its St. Joseph, MO office, a short drive from the Greater Kansas City Area. This position will work with an experienced and innovative team to develop and maintain new and existing web-based software applications. The role will interact with clients on scope and project deliverables to create software that will have a positive impact for the Angus breed and its members. This position also offers a hybrid work schedule, with a mix of in person and remote work.

POSITION RESPONSIBILITIES:

- Design and develop C# and SQL web-based applications and mobile applications.
- Development activities include real-time database driven applications, services, and management components.
- Perform System Analysis and Design; Design and Develop Applications; Develop Application Documentation; Perform Maintenance and Support.
- Stay current with Emerging Technologies and Products.
- Provide support to the Information Systems department by participating in other projects as assigned.

REQUIREMENTS:

- Familiar with all phases of the software development life cycle.
- Able to work effectively in a team environment.
- Excellent written and verbal communication skills.
- Mobile application development a plus.
- Ability to quickly analyze and solve problems.
- Reliable and dependable.
- A positive attitude and a willingness to learn.
- Ability to multi-task.
- Enthusiasm for software development and innovation.

EDUCATION/EXPERIENCE:

- Bachelor's degree in computer science, software engineering or other applicable fields, or equivalent work experience.

Employees of the Association enjoy a strong benefits package including medical insurance, dental insurance, vision coverage, life and disability insurance and a 401K. Personal Time Off (PTO) is also included.

If you are interested, please submit a cover letter, resume and salary requirements to careers@angus.org.

The American Angus Association is the nation's largest beef breed registry with nearly 25,000 adult and junior members. The Association's goal is to serve the beef cattle industry, and to increase the production of consistent, high quality beef that will better satisfy consumers throughout the world. The Association is comprised of the parent company, the American Angus Association located in St. Joseph, MO, along with its four subsidiaries: Angus Genetics Inc., Angus Productions Inc., Certified Angus Beef LLC and the Angus Foundation. The American Angus Association is an EOE.
