

Health Requirements for Cattle Exhibited in Nebraska

**If you have any questions regarding health regulations please call the following:
402-471-2351 - NE Department of Agriculture, Animal and Plant Health Protection**

*****Please do not call the American Angus Association with Health Regulation questions, we do not have those answers and will forward you onto the NE Department of Agriculture.**

Certificate of Veterinary Inspection (CVI)

- All cattle entering Fonner Park must be accompanied by a current CVI and shall be identified on the CVI. CVIs must list the Fonner Park as consignee.

Each CVI must:

- Be issued by an accredited licensed veterinarian.
- Show name and address of owner or exhibitor.
- Show all required tests and/or vaccinations.
- CVIs must be issued within 30 days of the exhibition

General Health Requirements for All Animals

- Representatives of the State Veterinarian's Office will be in attendance to verify CVIs.
- Under no circumstances may animals under quarantine be exhibited.
- Only animals not showing signs of infectious or contagious diseases will be allowed to show.
- Animals that have active ringworm, lesions, visible warts, dermatitis, or abscesses will not be allowed entry into Fonner Park for exhibition.
- The inspecting veterinarian may judge the ringworm to be inactive if the lesion is not encrusted and hair has begun re-growth in the area and is so stated on the CVI.
- All animals entering Fonner Park will be subject to examination by a veterinarian or a representative of the State Veterinarian's Office upon arrival or during the show. Any animal showing evidence of infectious, contagious, or communicable diseases may be immediately withdrawn from the show and held in quarantine at owner's risk and expense until properly treated and recovered, or until properly released to return to owner's premises following treatment.
- Animals with warts that are visible by a hands-on inspection will not be allowed to remain on the premises.
- Any animals that are sold or staying in Nebraska after exhibition must meet Nebraska import requirements.
- If Vesicular Stomatitis Virus (VSV) is detected in Nebraska or any other state, additional requirements may be put in place.

Nebraska Origin Beef Cattle

1. Tuberculosis: no test required to exhibit. Must be from a herd not under quarantine.
2. Brucellosis: no test required to exhibit. Must be from a herd not under quarantine.
3. Trichomoniasis: there are no Trichomoniasis testing requirements for animals originating from within Nebraska

Out-of-State Origin Beef Cattle

Tuberculosis:

1. Accredited Free States or Zones:
 - a. Beef cattle – no testing required.
2. Modified Accredited Advanced State or Zone:
 - a. Beef cattle – no testing required.
