Tattoo Identification Verification Update

Attention Exhibitors:

All cattle checked in during National Western Stock Show will receive an electronic label of **IDV: yyyymmdd** reflected on the EPD/Pedigree Lookup of said animal. This will serve as the electronic version of the “stamp,” signifying that the animal's ID (tattoo) has been checked.

(Stamp used to signify ID Verification)

Beginning in 2020 at the conclusion of the following shows – *National Western Stock Show, Western National Angus Futurity, Atlantic National, All American Angus Breeder's Futurity, National Junior Angus Show, American Royal and North American International Livestock Exposition* – the Events and Education Department will take all cattle that have been checked in and electronically mark that they have been ID Verified. Once recorded, an electronic version of the stamp (**IDV: yyyymmdd**) will appear on the animal's EPD/Pedigree Lookup. Physical registration papers will continue to receive the stamp.

The purpose of this addition is to make the check – in process more efficient by allowing electronic papers to be accepted without having to continuously check an animal's ID that has already been previously verified.
